BUILDING AND SAFETY DIVISION

Icynene LD-C-50 Insulation

PURPOSE: To approve the use of Icynene LD-C-50 Insulation.

COMMENTS:

Icynene LD-C-50 is a low-density open-cell polyurethane foam plastic insulation and air barrier system. When installed in accordance with ICC-ES Evaluation Report ESR-1826 it is approved for use in the Town of Truckee.

Contractors and installers shall be familiar with ESR-1826 and shall assure that the material is installed in accordance with that report. Please note the following from the report:

- Icynene LD-C-50 is considered air impermeable.
- A copy of the report shall be available on the jobsite during installation.
- A vapor retarder shall be installed in accordance with the requirements of the California Energy Code or 2009 IRC.
